

Safeguarding children and child protection policy

Use of mobile phones and cameras

Policy Statement

Staff, visitors, volunteers and students are not permitted to use mobile phones to take or record any images of the children. Staff must only use the designated camera/iPad(s) whenever they are taking photographs in the setting. Parents need permission from the designated safeguarding practitioner to use cameras, videos or mobile phones for photographs, images or recording in the setting

Procedures

- Under the Data Protection Act (2018) and GDPR, the setting must seek parental consent to take photographs and use video recorders. The parent/carer of each child is required to complete a consent form which gives the reasons and specific purposes for photographs and images being taken (for example; 1 Consent for use of photos/video recorders for Learning diaries (Tapestry) , 2 consent for use for Publicity and 3 consent for use for Settings website.)
- The setting has a designated camera/iPad(s) which is the responsibility of the designated safeguarding practitioner. The setting logs the details of the designated camera/lpad(s) and its/their usage
- The information contained within each learning diary on tapestry is to relate to an individual, identifiable child; therefore, it is to be treated as personal data.
- Rainbow Pre-school uses an online system for learning diaries named 'Tapestry'. All parents/carers are required to complete the tapestry permission slip to enable us to upload and store photographs and data on their children. Permissions are completed before any data/photographs are uploaded. Details of the systems security and storage of data is within the permissions. A copy of the permissions letter is attached to this policy for reference.
- Images are to be stored in line with the Data Protection Act 2018
- As a setting we are registered with the Information Commissioners Office (I.C.O) for data protection and our registration number is; ZA115727
- All images will be stored and disposed of securely. The aim will be to prevent unauthorised access, ensure confidentiality and protect identity.

- The following aspects of security are to be managed accordingly:
 1. Physical security – effective measures will be put in place to ensure physical security and to protect against theft, including that of laptops, computers, cameras, and any personal data, including photographic images.
 2. Computer security – effective measures are to be implemented to ensure computer security. Awareness will be raised in respect of technological advancements which could put online systems at risks.
- Security procedures are to be proportionate to the potential risks involved and must be subject to constant monitoring and review
- Photographs will be stored on the settings Ipad, which is password protected in accordance with the setting's data retention schedule. When the images are no longer required or the setting ceases to operate, all photographs will be deleted from the iPad or laptop. Photographs are deleted regularly from the Ipad once uploaded to tapestry online journal.
- The settings Ipad/camera must not leave the setting and will not be removed from the site electronically unless there is a specific reason which has been agreed with the designated safeguarding officer and details logged. In the case of an outing or other activity away from the setting, risks must be minimised, e.g. download all photos before removing camera/s or memory cards and other portable devices from the setting.
- If photographs are printed in the setting by staff and images are then deleted from the Ipad/camera and photos are shredded once finished with.
- Children have their photographs taken to provide evidence of their achievements for developmental records. Photographs may be taken during indoor and outdoor play and displayed in albums or a child's development record/online learning diary for children and parent/carers to look through.
- Often photographs may contain other children in the background. If a parent/carer has not completed a consent form for the relevant usage we will not use an image where that child appears in the background
- Events such as, sports day, outings, Christmas and fundraising events may be recorded by video and photographs by staff and parent/carers but always in full view of all attending. Parents/carers, staff, volunteers and students will be notified of this in advance. At the beginning of every event parents/carers, staff, volunteers and students will be reminded not to include photographs of children other than their own on social media.
- No images will be taken of children which captures them in what are commonly understood as non public activities like toileting or changing clothes, or which show body parts not usually visible in public settings.
- Use of cameras/Ipads and mobile phones is prohibited in the toilet or nappy changing area.
- If photographs of the children taking part in an activity are used to advertise/promote our setting via our Web site, in the local press etc; we do not show children who are in breach of rules or are behaving in a reckless or dangerous fashion.

- To encourage children's development (understanding the world; technology) children have supervised access to the settings tablets. These are set up with age appropriate games and apps. The tablets have restrictions to ensure we safeguard children and are checked daily. Children are aware of the rules relating to use of the tablets. Children take photographs and videos on the tablet and are fully supervised by staff members doing this. Protocol in relation to storage of photographs will also be followed in relation to the tablets.
- A breach of this policy could result in disciplinary action and staff allegations procedure will be followed.
- We will do our up most to protect children's identity: We will not photograph children where consent is not given.
- Mobile phones belonging to staff, volunteers, students and others will be left in the designated secure area which is situated in a locked tin in the kitchen.
- Personal calls must be directed through the settings phone.
- Staff must not make personal calls during their working hours. However, in urgent cases, a call may be made or accepted if deemed necessary and by arrangement with the Leader/Manager.
- The settings mobile phone is labelled as such and is kept in the Kitchen through the session.
- Visitors and parents can only use their phones outside the building unless they have received permission from the designated safeguarding practitioner
- Staff will be vigilant when children are in the outside area to prevent unauthorised persons taking photographs or recording images.
- Driving: if any practitioner is required to drive in a working capacity, and has responsibility for the work mobile, the phone must be switched off whilst driving. It is strongly recommended that practitioners follow the same procedures regarding their personal mobile phones.
